

Imagine having to make a choice between buying groceries or fixing a leaky roof...or struggling to pay your electric bill, knowing that your wiring is faulty and dangerous but that you just can't afford to fix it. For some people, the cost of even basic home repairs is out of reach.

HomeFront can help. By focusing on intensive construction projects and repairs that will have a lasting impact, HomeFront helps senior citizens, the disabled, single-parent families and others who are on a fixed income stay in their homes. Homeowners are selected on the basis of income guidelines and the need for critical repairs.

If you know a homeowner who needs help, please contact us at 1-800-887-HOPE (4673).
